

Candle In The Wind - Bb

F Eb Bb F F7

Bb

Goodbye Norma Jean

Eb

Though I never knew you at all

Bb

You had the grace to hold yourself

Eb

While those around you crawled

Bb

They crawled out of the woodwork

Eb

And they whispered into your brain

Bb

They set you on the treadmill

Eb

And they made you change your name

[CHORUS]

F F7

And it seems to me you lived your life

Bb Eb

Like a candle in the wind

Bb

Never knowing who to cling to

F

When the rain set in

Eb

And I would have liked to have known you

Gm

But I was just a kid

F

Your candle burned out long before

Eb Bb

Your legend ever did

Bb

Loneliness was tough

Eb

The toughest role you ever played

Bb

Hollywood created a superstar

Eb

And pain was the price you paid

Bb

Even when you died

Eb

Oh the press still hounded you

All the papers had to say

Bb Eb

Was that Marilyn was found in the nude

[CHORUS]

Bb

Goodbye Norma Jean

Eb

Though I never knew you at all

Bb

You had the grace to hold yourself

Eb

While those around you crawled

Bb

Goodbye Norma Jean

Eb

From the young man in the 22nd row

Bb

Who sees you as something more than sexual

Eb

More than just our Marilyn Monroe

[CHORUS]

Bb F

Your candle burned out long before

Eb Bb

Your legend ever did
